OFFICIAL PAPER OF COUNTY

The Legislature of Maine will elect a successor to Blaine next Tuesday.

At a recent book sale in London an ancient edition of the Bible, printed in Latin about 1402, brought \$3,800. All the appropriation bills were

before the adjournment of Congress. Under the late act of the Legislature County Superintendent Root is of Maine.
Secretary of the Treasury—William

On the 14th of this month the people of Indiana will again vote on the constitutional amendments which they heretofore adopted, but which were declared null and void by the Supreme Court of that State.

There are a dozen candidates in Minnesota to fill the place in the United States Senate made vacant by the death of Senator Carpenter, and the Republicans in the Legislature of that State find it difficult to agree upon any one of the number.

The "talk mill" of Kansas, otherwise known as our State Legislature, wound up last Saturday, As is usual during the last hours of our Legislature, the members who remained indulged in much fun making and perpetrated many practical jokes, All manner of placards were pasted on the backs or pinned to the coat tails of different members. Our legislators were either very desirous of getting home to receive the congratulations of their constituents or of fleeing from the scene of their folly, as it was very difficult for the sergeant-at-arms and his assistant to keep a quorum present during Saturday to receive messages of the Governor, who was kept busy signing the bills that were rushed through during the closing hours. The great majority of bills passed, aside from the appropriations, were of a local nature.

We think it would be wisdom on the part of the temperance people to be governed by the conservative men among them. It will not be long till the first of May, when, if the new law is strictly enforced, it will need the carnest co-operation of all temperance people, while to begin the fight now with a broken front and contentions among themselves the temperance people will find it more difficult to enforce the new law when it takes effect and is in force.

Istate of the man. The new law it to offend the partizan, and yet it expresses, decided convictions upon many great questions. The problem of equal suffrage for the lately enfranchised African race is admirably stated and its wide and far reaching bearings clearly pointed out. Yet, so noble and generous is the spirit and manner in which this issue is presented, that the Southern people themselves can hardly take offense at it, but must be led to a more just and patriotic temper of mind with regard to it.—Lawrence Journal.

For several weeks past politicians and newspaper correspondents have been forming cabinets for Garfield, and confidently assuring the public that this one or that one had been positively decided upon. No President has ever received so much advice in reference to his cabinet as has President Garfield, and there perhaps has never been a time when the great mass of our people manifested so much interest in reference to this matter. The suspense is ended, and guesses in regard to the matter are no longer necsary. The only man who had authority to make a cabinet has been heard from. On Saturday President Garfield sent to the President the following cabinet, which was at once passed and signed by President Hayes confirmed by that body without a disenting voice:

Secretary of State-James G Blaine,

Windom, of Minnesota.

Attorney - General — Wayne Mac-Veagh, of Pennsylvania.

Postmaster - General — Thomas L.

James, of New York.

Secretary of the Interior—Samuel J. Kirkwood, of Iowa. Secretary of War-Robert T. Lin-coln, of Illinois.

Secretary of the Navy-William H. Hunt, of Louisiana.

Without s single exception the appointments are all good, and the cabinet seems to give general satisfaction.

PRESS COMMENTS.

While not a Cabinet of exceptional ability, or one noted generally for conspicuous public service, it is in the main a good one, and the general publie will be inclined to give it a fair trial.

Ex-President Hayes and wife returned to their old home at Fremont, Ohio, last Tuesday. On their arrival a wise and remarkably successful administration.

It is a respectable Cabinet, but not a great one. The greatest man in it is Senator Blaine, and from him it tapers down by regular gradation to a small point. It is a disappointing Cabinet. It is an attempt to compro-mise geographical claims with politi-cal difficulties; an effort to arrange party preferences by the distribution of party patronage. The Cabinet as a whole does not rise above mediocrity. Senators Blaine and Windom are the only two men in it of really national reputation.—Indianapolis Journal.

The composition of the cabinet will afford general satisfaction. It meets requirements of locality. It has a high average of ability, unques-tioned integrity, and in its collective capacity a very unusual experience of public affairs and knowledge of the duties pertaining to the several offices. Mr. Blaine is in one sense a national character. He is an eastern man with a western temperament. Mr. Windom in point of ability ranks high, as a sound and clear-headed thinker. President Garfield's inaugural address will be read with profound and sympathetic interest by the people of all parties. We are anxious to commence ploughing, but Jack Frost is still in the way. When you need a barber try Andy Kenmore. He will do your work quick and well. NOBODY.

LATER.-Look well to your dogs. We have no desire to start or encourage a mad dog scare, but it is a fact that appearances indicate that hydrophobia is at large in our township. Yesterday, J. J. Newbro stated that Tuesday morning his place was raided by a mad dog, the raving creature biting several animals. Assisted by Jim Christy, after quite a chase the dog was killed, but they failed to ascertain whose it was or where it came

Hurrah for our new blacksmith! Jones is his name, and he is son of our accommodating mail carrier. We may be mistaken, but it appears to us that this community can readily sustain two blacksmith shops. We often have too much work for one, and we believe that quite an amount of patronage now going elsewhere, could in a short time be diverted to this point. It seems that a false rumor is in the air, and right here we wish to say that P. R. McClure authorizes us to state, that all his old customers and as many new ones as come, will find him at his shop ready for business. Come and see. We really hope that both shops will be so well supported as to become a necessity. NOBODY.
